

FASTLINKS

Application Profile: Kenosha County-Kenosha, WI

FASTLINKS was chosen by the Kenosha County to install a licensed, 23GHz, 100BaseT radio link between its backbone and new Job Center 2.5 miles away. In addition, FastLinks was to install an unlicensed, 10BaseT between the backbone and the County's Human Development Services facility, 2 blocks away. The challenge was to have the links installed within 2 weeks of receiving an order. FastLinks received its order on June 17, 2002 and had both links operational by June 31, 2002.

FYI – In 2002, CNN and Money Magazine selected Kenosha, WI as the 8th “Best Place to Live” in the US.
